The ships have been built with the latest regulations of the Code for High Speed Vessels HSC2000, and they also cover all specifications of IMO, the regulations of the Greek Ship Supervision and the Presidential decree 221.

---

The new high-speed boat, with state-of-the-art technology and fully equipped (type Sea Lord 40m) was constructed in Batservice shipyard in Norway and was registered exclusively for the Dodecanese islands.

The **Dodekanisos Pride** is the sister boat of the **Dodekanisos Express** and provides the same high quality standards.

The Sea Lord speed boats can transfer cars and passengers, including medical equipment for first aid, and are designed with a symmetric hull for better sea keeping and comfort to passengers.
